

FIREFIGHTER OF THE YEAR  
COREY DAVIDSON

Corey Davidson joined Southwest Adams County Fire Rescue in February 2003. He has been one of the leaders on our department for some time. Corey heads our EMS program and transport services. This position is getting close to a full time position with all of the changes to the program but Corey makes it work by doing it on a part time basis. Presently Corey is a C shift Paramedic who is always looking for new an innovative ways for the crews to do their job.

Corey was instrumental in getting the fire department several grants to keep the costs down to the taxpayers. Recently, he worked on a grant to send firefighters to Paramedic school with matching funds from the district. These grants are not easy to secure and a lot of time and effort must go into the presentation to even have a chance of getting funding. He realizes that with the shortage of funding, we need to come up with creative ways to do our job without additional taxation. Corey has been in the medical fields for quite some time and also works as a medic at one of our ski resorts. He is constantly bringing new ideas to make us better.
