

Southwest Adams County Fire Rescue
Lieutenant Clinton Garner

Lt. Clinton Garner joined the fire department in 1994 and in that time, he has been involved with many different programs that the fire department has. He has been in charge of the Muscular Dystrophy drive for our department for many years and takes a deep interest in getting the most out of the staff to insure that we have a sincere effort put into the program.

Lt Garner also is in charge of our Technical Rescue Team which comprises firefighters who are trained in High angle rescue, swift water rescue, ice rescue, trench rescue. As fire departments get more involved in these specialized events, Lt Garner has kept our people up to date on certifications, training and updates as they come up.

He has organized and participated in the Fallen Firefighters Memorial in Colorado Springs for many years. This program honors all of the firefighters who have passed on doing the thing they love, helping their fellow man in time of need.

Clinton has worked on the Hot Times Cool Cars show in which the all of the profits go to Children's' Hospital for cancer research. He seems drawn to do the little extra to make a difference for the community.

His crew members and fellow officers know that they can count on him to be a leader not only on the fire ground but in the station as well. He is looked upon as someone who stands behind his word and will do whatever it takes to make his department shine.

The fire department salutes Lt Clinton Garner as our firefighter of the year.
